Best for people who don't need anything fancy, the Logitech C270 has a built-in stereo microphone that features noise cancellation to help deal with background noise, ensuring you always sound as clear as possible.. Sony Handy Cam Software For Mac Best Cam Software For Swiss Machine MeshCAM, the CAM software that I develop, is now up and running on the Mac.. All external webcams offer some great benefits over the built-in webcams that come with your Mac.. While Sighthound allows you to upload your clips to a cloud service, the small form factor and ability to hide the machine in a closet make the Mac Mini a better bet in the event of a burglary.. As far as I know, this makes MeshCAM the first commercially-available CAM software for Mac/OS X.
