According to one study, it is also commoner on cold days or in cold rooms, and makes us feel warmer! On the other hand, it could be argued that nostalgia is a form of self- deception in that it invariably involves distortion and idealization of the past, not least because

the bad or boring bits fade from memory more quickly than the peak experiences.. The paradox of In The Weight of Glory, Lewis illustrates this from the age- old quest for beauty: The books or the music in which we thought the beauty was located will betray us if we trust to them; it was not in them, it only came through them, and what came through them was longing.. The literal translation of the Japanese mono no aware is Coined in the 1 8th century by Motoori Noringa for his literary criticism of the Tale of Genjii, it refers to a heightened consciousness of the transience of things coupled with an acute appreciation of their ephemeral beauty and a gentle sadness or wistfulness at their passing—and, by extension, at the realization, reminder, or truth that all things must pass.. Although beauty itself is eternal in its recurrence, its particular manifestations are unique and special because they cannot in themselves be either preserved or recreated.. These things—the beauty, the memory of our own past—are good images of what we really desire; but if they are mistaken for the thing itself they turn into dumb idols, breaking the hearts of their worshippers.
