Control every aspect of your music, from the visual soundstage of your tracks to the tonal balance of your mix—all with iZotope’s award-winning digital signal processing.. It will also always turn up on time and won’t spill drinks on your mixing desk.. Visually, it’s a bit more stripped back than Alloy and Ozone, with iZotope unfortunately continuing its trend for not including noise gates as part of the achitecture of its dynamic modules.

You have an EQ, two multiband compressors, a multiband Exciter, an improved Transient Shaper module, and finally, a limiter.. This is pretty powerful and easy to use, but it lacks the attack and release settings of Ozone’s Dynamic EQ module, and there’s no ratio to control how hard it’s working.. The two compressors are identical, can be run in serial, and feature Modern and Vintage modes, plus RMS, Peak and True Envelope detection, and various internal and external sidechain options.. Delving further, we can see that the EQ module has now been upgraded to a flexible dynamic EQ that allows you to compress or expand up to eight frequency bands, and a high/low shelf or cut.. Achieve a clear, well-balanced mix with Neutron’s innovative new mixing and analysis tools.
